CAREER OBJECTIVE

Enthusiastic and detail-oriented Computer Engineering student with strong foundations in programming, operating systems, networking, and embedded systems. Eager to contribute skills in C/C++, data structures, Linux, and wireless technologies to Qualcomm's cutting-edge software development projects.

EDUCATION

B.E. – Computer Engineering | SPPU – Keystone School of Engineering, Pune | 2022 – 2026 | CGPA: 7.43 (Pursuing)

Diploma – Information Technology | MSBTE – AISSMS Polytechnic, Pune | 2020 – 2023 | Percentage: 71.25%

SSC | S.B. Patil Public School, Indapur | 2020 |
Percentage: 79.60%

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Operating Systems & Embedded: Linux, Android (Basics), Windows

Networking: TCP/IP, UDP, HTTP, RTP, Wireless Standards (4G LTE, Wi-Fi, Bluetooth)

Core Concepts: OS Fundamentals, DSA, OOP, Multithreading, Drivers (Basics)

PROJECTS

Customer Feedback Management System (Salesforce Classic)

- Designed feedback workflows and reporting dashboards.
- Applied validation rules and automation for data accuracy.

Crop Recommendation Using Machine Learning

- Developed soil image analysis using CNN for crop optimization.
- Utilized computer vision techniques to improve prediction accuracy.

EXPERIENCE

Software Developer Intern – 3WD Software (Remote)

- Completed industrial training in Core Java, OOP, and JDBC.
- Developed a console-based application with MySQL integration.
- Collaborated using GitHub and participated in code reviews.

Certifications

- Java Programming – 3WD Software
- Java Certificate – Infosys Springboard
